Because this site is dedicated to free books, there's none of the hassle you get with filtering out paid-for content on Amazon or Google Play Books. We also love the fact that all the site's genres are presented on the homepage, so you don't have to waste time trawling through menus. Unlike the bigger stores, Free-Ebooks.net also lets you sort results by publication date, popularity, or rating, helping you avoid the weaker titles that will inevitably find their way onto open publishing platforms (though a book has to be really quite poor to receive less than four stars).

It is easy to understand and text and with this book it is truly not hard to understand chemistry and do well. I easily got an A in Chemistry I and I believe that everyone who failed the class simply didn't look over the book or their notes after class. It certainly wasn't the fault of the professor or the text- both explained chemistry very well.
