Mains and Emergency Lighting
Lighting Criteria CIBSE LG2 and BS EN12464-1:2011 set the standards for lighting levels in ward areas. The table right gives the specific lux levels for different tasks. As well as the lighting levels, care must be given to ensure good colour rendition. Whilst Ra80 is acceptable for patient tasks, both codes specify Ra90 for examination tasks.

Aight and well: lighting for healthcare environments ...
The revised Lighting Guide 2, CIBSE's long-awaited update of its publication on lighting for hospitals and healthcare buildings, has finally arrived. In many ways it has benefited from the delay – for example we took the opportunity to harmonise its content and task illumination levels with the requirements of BS EN 12464-1: Light and lighting.

Whitcroft Lighting
As CIBSE LG2 does not directly mention a doctors consultation room I am caught between 300 & 500 lux? Each room is to have a dedicted examination lamp located above the examination couch / bed.

The SLL represents and welcomes all those who are interested in the art, science and engineering of light, lighting and its applications. The Society offers authoritative publications, professional recognition and a wide range of learned society activities.

LG01 Lighting Guide 01: The Industrial Environment - LG1 ...
Also the CIBSE Lighting Design Guides provide a very good source of guidance for the design of working spaces, and can be considered as best practice. Lighting Guide (LG) 7 is possibly the one most commonly referred to, but it is often misunderstood by being used to specify luminaires rather than the total environment of the space.
