A wireless range extender works with the wireless router you already have set up, and it improves the coverage and performance of the existing signal. eBay is proud to offer many affordable Wi-Fi extenders and boosters from a range of trusted brands.

SpeedGuide :: Broadband Tweaks, Wireless Networks, Security

Dual band allows your wireless network to be set up for more than one band, such as 2.4 gigahertz and 5 gigahertz. With the rise of consumer gadgets using 2.4 gigahertz, you can experience wireless interference in your home. The ability to switch to 5 gigahertz reduces this interference because fewer electronics are using it.
