The BX GT was launched in 1985 and featured a 1.9 L Peugeot-sourced engine, in general a Sport engine with only one twin choke carburettor. Max power is 105 PS (77 kW). That same year, Citroën produced a "Digit" model, which was based on the BX GT.

### C3 Corvette Choke Rods, Covers, Springs, Tubes (1968-1982)

The 1015 engine was dropped from the GS range in September 1977, with the entry-level product now the 1129cc unit. This is a shrunken 1222 rather than a stretched 1015. 1299. An X denoted the sporty end of the GS range, so it is natural that the 1299 engine, should be seen first in the GS X3, launched in September 1978.

### Citroën Saxo - Wikipedia

The XK was an all-new inline-four engine developed for Peugeot's new 204, their first front-wheel drive car. The engine is made from aluminium and has removable cylinder liners. The engine had a distinctive design; the gearbox and differential were located directly below the engine block.

### Common Citroen Problems - Car-nect Car Servicing, MOT and ...

For the second engine there was a separate push-button starter and choke. With a gearstick between the front seats, both transmissions were operated simultaneously. For the two engines, there were separate petrol tanks under the front seats. The filler neck sat in the front doors. Both engines (and hence axles) could be operated independently.
