Architecture, Engineering & Construction (AEC) Collection ...

The old joke goes that architects learn less and less about more and more until they know nothing about everything and engineers know more and more about less and less until they know everything about nothing. The truth in this is that archite...

Civil Engineering and Architecture

But civil engineering and architecture are two very different beasts, and collaborating is not always smooth. Civil engineers are generally used to a linear process in which they produce calculations, make decisions, and present solutions. But when working with architects, this process tends to zigzag a little more.

Civil Engineering and Architecture - Indiana
