Climatology. Climatology, branch of the atmospheric sciences concerned with both the description of climate and the analysis of the causes of climatic differences and changes and their practical consequences. Climatology treats the same atmospheric processes as meteorology, but it seeks as well to identify the slower-acting influences...

Extreme weather and climate | npj Climate and Atmospheric ...

The 3rd edition removed a number of graphs that actually required students to think about concepts and principles of chemistry and physics and apply them to atmospheric sciences like climatology. This removal of info was important, as it shows the authors actually removed content that was applicable to climatology.
