Electronic Communication Protocols Basics and Types with ...

***A protocol is a set of rules that governs how
information is delivered. For example, to use
the telephone network, the protocol is to pick
up the phone, listen for a dial tone, dial a
number having a specific number of digits, wait
for the phone to ring, and say hello. In radio,
the station uses amplitude or frequency
modulation with a specific carrier frequency
and transmission bandwidth, and ...***
