"Argument" is the most fundamental concept in our study of critical thinking. Much of this course will be devoted to identifying, developing, and evaluating arguments. We will study valid and invalid forms of arguments, strong and weak arguments, causal arguments, analogical arguments, and arguments based on generalizations.

Floyd, Digital Fundamentals, 11th Edition | Pearson

Situational awareness or situation awareness (SA) is the perception of environmental elements and events with respect to time or space, the comprehension of their meaning, and the projection of their future status.. Situation awareness has been recognized as a critical, yet often elusive, foundation for successful decision-making across a broad range of situations, many of which involve the ...

Argument - Fayetteville State University

So this is critical thinking of a numerical, statistical kind. It's a bit different from the more verbally-based critical thinking that I've been involved with. I'm really interested to have my my assumptions challenged, and Factfulness is a very readable book. It's lively and thought-provoking.

Acknowledgments. In the original version of this entry, an attempt was made to canvass some of the history of the philosophy of dance as it existed and had developed in western philosophical aesthetics. In that domain dance is treated as a meaning-making and often communicative, expressive or representational theater or concert art that is practiced and performed for audience appreciation.

The Philosophy of Dance (Stanford Encyclopedia of Philosophy)

Philosophy (from Greek: ?????????, philosophia, 'love of wisdom') is the study of general and fundamental questions, such as those about existence, reason, knowledge, values, mind, and language. Such questions are often posed as problems to be studied or resolved. Some sources claim the term was coined by Pythagoras (c. 570 - c. 495 BCE), others dispute this story, arguing that ...
