CTRL+ALT+DELETE: Reboot Your Life - YouTube

Hitting CTRL-ALT-DELETE on most Linux distributions will start the soft reboot process. Normally I like to disable this (at least on production systems) because someone might make a mistake and reboot the system. Also what I don't like about this shortcut is that you don't need to be logged in (no user/password needed - but only console access) to reboot the system.

Ctrl Alt Delete Reboot Your

Control-Alt-Delete (often abbreviated to Ctrl+Alt+Del, also known as the "three-finger salute" or "Security Keys") is a computer keyboard command on IBM PC compatible computers, invoked by pressing the Delete key while holding the Control and Alt keys: Ctrl+Alt+Delete. The function of the key combination differs depending on the context but it generally interrupts or facilitates interrupting a ...
