So, the definition itself gets a bit Varied over time. I do see the Estonian aspect of being a pre cyber war that didn't actually turn into cyber war. It was the use of technology against Estonia, but without the real kinetic impact, I find it difficult to really say it was a cyber war itself.

Cyber War The Next Threat

Cyber War is a powerful book about technology, government, and military strategy; about criminals, spies, soldiers, and hackers. It explains clearly and convincingly what cyber war is, how cyber weapons work, and how vulnerable we are as a nation and as individuals to the vast and looming web of cyber criminals.
