When it comes to the putative title of “Master of the Constructed Language,” Mark Rosenfelder’s claim to it has some serious merit. He has quite literally written the book—four, in fact—dedicated to conlangs and helping readers with crafting their own. The most recent of these, *The Syntax Construction Kit (SCK)*, was released in November.

Deconstruction is an approach to understanding the relationship between text and meaning. It was originated by the philosopher Jacques Derrida, whose approach consisted of conducting readings of texts looking for things that run counter to its intended meaning or structural unity. The purpose of deconstruction is to show that the usage of language in a given text, and language as a whole, are irreducibly complex, unstable, or impossible. Throughout his readings, Derrida hoped to show deconstruct

Deconstructing women. Her background is in social work. Deconstructing women – it sounds painful, and in my opinion it very well might be. Postmodernist and poststructuralist theorists argue that the category of “woman” is entirely socially and culturally constructed, and as such wish to “deconstruct” the category.
