FIM provides a Graphic User Interface(GUI) front-end programmed in Delphi to allow multiple clinicians to input FIM data for a given patient. This documentation then becomes available in CPRS as a progress note with addendums and/or a completed consults. The GUI front-end gathers demographic data as well as other

Functional Independence Measurement (FIM) User Manual
Delphi; Building a lexer plugin. A lexer plugin is a kind of extension compared to a normal plugin, i.e. in addition to all the functions already mentioned, additional ones have to be exported and also an XML file defining the styles has to be generated. Notepad++ (Npp) currently supports only the ILexer4 interface.

Terms of Usage for the PyMOL User's Manual This manual is NOT free. It is a PyMOL Incentive Product created to help you use the program while also generating recurring sponsorship for the project. This manual is made available for evaluation via the "honor"

PyMOL User's Guide
Then you can inspect the macro. So if it were possible (which it doesn't seem to be) to create a new sheet from a template by using manual actions in Excel, you could just record those actions to a macro and look at the resulting code, and then duplicate the effort in Delphi (it'll be VERY similar but not the same).

[Source] Delphini Naga Riddle was born June 30, 1997 during the Battle of the Astronomy Tower to Tom Riddle Jr. (or Lord Voldemort as he was known at the time) and Bellatrix Lestrange. She spent the first year of her life with the Rowles, who were entrusted with the care of the infant during the war. Her parents died on May 2, 1998, leaving her an orphan at an early age. She lived with the ...

Blending Modes ¶. Blending modes are a little difficult to explain. Basically, when one layer is above the other, the computer uses a bit of programming to decide how the combination of both layers will look.

Blending Modes — Krita Manual 4.4.0 documentation
The Lazarus component library (LCL) is very similar to Delphi's VCL (Visual Component Library). Most Lazarus units, classes and properties have the same name and functionality as their equivalents in Delphi. This makes porting Delphi applications to Lazarus relatively easy. LCL documentation - On line help for LCL (work in progress).
