Background. Social networking sites (SNSs) are Web-based platforms on which individuals connect with other users to generate and maintain social connections []. Considerable disagreement exists as to associations that SNS use may have with depression and anxiety [2,3]. On the one hand, SNSs may protect from mental illness, as they support and enable social interaction and connection [1,4], and ...

## **Suicidal Thoughts: Symptoms and Risks of Suicidal Depression - WebMD**

The Great Depression was a severe worldwide economic depression between 1929 and 1939 that began after a major fall in stock prices in the United States. The economic contagion began around September 4, 1929, and became known worldwide on Black Tuesday, the stock market crash of October 29, 1929. The economic shock transmitted across the world, impacting countries to varying degrees, with most ...
