Since joining Gensler in the Workplace studio, she has focused on becoming a design management leader and is the gServe leader for the office.

DESIGNING WITH THE HOMELESS | INTRODUCTION  
The architectural solution for this dilemma is not designing more affordable homeless shelter. What if the solution can move with its owner? If a homeless person is hired at the company too far away from his current place, would it not be better for him to take and move with his shelter rather than he has to go through the process of finding a suitable shelter that is near to his new employment?

Defensive architecture: designing the homeless out of cities  
Design questions aside, the kind of long-term, holistic care provided within the Trust's buildings is increasingly becoming the answer to the question of how to help the chronically homeless. It's central to President Obama's " Opening Doors " plan launched in 2010 and strategies in cities across the country.
