### Deutz Parts - Air Cooled Diesel

Deutz-powered air-cooled machines are well-suited for many applications since they cannot freeze or boil-over during normal operation. Deutz also manufactures oil-cooled engines. These can provide the same power as other engine designs, but in a smaller package, since they don't require the additional space to house a

radiator.

## Deutz Engines - Diesel Parts Direct

The air cooled Deutz's (912-913 series being the most common) are noiser than an oil or water cooled one due to no jackets. They are tanks though, and will run forever when maintained properly. The oil cooled ones (1011 series most common) had some issues early on, mostly timing belts and head gaskets, but in the long run have proven themselves to be a pretty good engine.

## DEUTZ Tier 4 Engines - DEUTZ Power Centers
