An infection is the invasion of an organism's body tissues by disease-causing agents, their multiplication, and the reaction of host tissues to the infectious agents and the toxins they produce. An infectious disease, also known as a transmissible disease or communicable disease, is an illness resulting from an infection.. Infections can be caused by a wide range of pathogens, most prominently ...

Infection - Wikipedia

If you are anything like me, choosing Amazon Kindle categories over at KDP is an utter nightmare in that little pop-up box, and the categories you can find here in the Kindle store, while helpful sometimes, just don't seem to reflect the complete list of categories you can choose from. With that in mind, here's an easy to browse copy of the Amazon Kindle book categories list so that ...
