Honda Accord 2003-knock sensor p0325 code

Inside, the knock sensor is a piezoelectric crystal. This crystal is used to produce AC voltage under vibration. The knock sensor is a form of transducer, which is a device that converts changes in physical quantity into an electrical signal. In other words, a knock sensor does not receive a reference voltage from the PCM – it creates its own.

30530-MCA-003 Honda Sensor Assembly, Knock \$90.97 - 2WheelPros  
Technically, there is a piezoelectric sensing crystal and a resistor in the knock sensor to make sure it works correctly. It is a good opportunity to check if your knock sensor is good or not when you are driving at a highway speed. The knock sensor is closely related to the ignition timing of the engine.
