Curating the Digital World: Past Preconceptions, Present Problems, Possible Futures In some corners of the Web, a semantic battle is being fought for the meaning of the word "curate." Once a term describing the activities of museum professionals, in the early twenty-first century curate has come to be applied to a wide range of online activities involving the choice and presentation of other people's content.

Paper in a Digital World There is no doubt that the electronic world has made things faster. Can you ever imagine trying to find a document by having to filter through columns of file cabinets or shelves housing folders filled to the brim with paper? Any attempt to locate a file or record would be a nightmare.
