### Citroën / Peugeot TU 16v Turbo Package - DP-Engineering

I'm just in the process of dismantling an engine that wasn't built by me, but bought by a customer as a bit of an unknown. When I turned it over to take the sump off, I could see there was a sandwich flange beneath, so I did my best to separate the sump without distorting the baffle flange, but as always, this proved very difficult to do and it ...

The PSA TU engine is a family of small four-cylinder engines used in the Peugeot and Citroën range of cars. It was introduced in 1986 with the Citroën AX, replacing the X family, although it shared many components with its predecessor. The TU is available in either petrol or a non-turbo Diesel variants, the latter called TUD.
