Books by Cricket Liu (Author of DNS and BIND)
DNS and BIND discusses one of the Internet's fundamental building blocks: the distributed host information database that's responsible for translating names into addresses, routing mail to its proper destination, and many other services. As the authors write in the preface, if you're using the Internet, you're already using DNS — even if you don't know it.The third edition covers BIND 4.9 ...

Cricket Liu - O'Reilly Media
Cricket Liu: DNS and BIND both have been ready for IPv6 for some time. One of the drivers behind BIND 9's development was support for IPv6, both the complex A6- and bitstring-label-based mappings and IPv6 as a transport. (IPv6 forward and reverse mapping since been simplified.) Support for an IPv6 transport was even grafted into BIND 8 with 8.3.
