Dynamic Objects
(C# and ...

Personally I dont like the thought of using the dynamic in c# for solving problems that can be solved (maybe even better) by standard c# features and static typing, or at most with type inference (var).dynamic

Access Free Dynamic Vc

should only be used when it comes to interoperability issues with the DLR. If you write code in a static typed language, like c# is, then do it, and dont emulate a dynamic language.
