Chapter 7 Earthquakes Earths Interior Answers
single earthquake.Large earthquakes occur at various places along the San Andreas Fault roughly once every 10 to 20 years. The underground place where the rock begins to separate is known as the focus (plural, foci) of the earthquake. Di-rectly above the focus, at the Earth's surface, is the epicen-ter. (See Figure 7-4.)

Chapter 7 Earthquakes and Earth's Interior
Science Guided Reading and Study Workbook ... Chapter 8 Earthquakes and Earth's Interior Section 8.2 ... Damage done by an earthquake is related to depth of focus. The focus is where the origin of the waves begin so the quakes with a shallow depth of focus are usually more damaging because it is closer to the earths surface.

Study Guide - Earthquakes - 8.1-3, 11.1.pdf
