Elementary Differential Equations and Boundary Value ...
Elementary Differential Equations with Boundary Value Problems is written for students in science, engineering, and mathematics who have completed calculus through partial differentiation. An elementary text should be written so the student can read it with comprehension and without too much pain.

ELEMENTARY DIFFERENTIAL EQUATIONS WITH BOUNDARY VALUE PROBLEMS
The 10th version of Elementary Differential Equations and Boundary Value Problems, like its predecessors, is written from the point of view of the applied mathematician, whose curiosity in differential equations might typically be fairly theoretical, typically intensely sensible, and typically somewhere in between.

Elementary Differential Equations and Boundary Value ...
Elementary Differential Equations with Boundary Value Problems integrates the underlying theory, the solution procedures, and the numerical/computational aspects of differential equations in a seamless way. For example, whenever a new type of problem is introduced (such as first-order equations, higher-order equations, systems of differential equations, etc.) the text begins with the basic existence-uniqueness theory.
