Grasshopper - Wikipedia

An early institution often called a university is the Harran University, founded in the late 8th century. Scholars occasionally call the University of al-Qarawiyyin (name given in 1963), founded as a mosque by Fatima al-Fihri in 859, a university, although Jacques

Verger writes that this is done out of scholarly convenience. Several scholars consider that al-Qarawiyyin was founded and run as a ...

Auburn University - Wikipedia

Pesticide resistance describes the decreased susceptibility of a pest population to a pesticide that was previously effective at controlling the pest. Pest species evolve pesticide resistance via natural selection: the most resistant specimens survive and pass on their acquired heritable changes traits to their offspring. If a pest has resistance then the pesticide lacks efficacy – efficacy ...

Forensic science - Wikipedia

Etymology. The word "animal" comes from the Latin animalis, meaning 'having breath', 'having soul' or 'living being'. The biological definition includes all members of the kingdom Animalia. In colloquial usage, the term animal is often used to refer only to nonhuman animals. The term "metazoa" is from Ancient Greek ????? (meta, used to mean "later") and ??? (z?ia, plural of ????? ...

Book of Revelation - Wikipedia

Bloodstain pattern analysis (BPA) is the field of forensic science that consists of the study and analysis of bloodstains at a known or suspected crime scene with the purpose of drawing conclusions about the nature, timing and other details of the crime. It is used mostly to study homicide or other violent crimes in which blood is present

and can help in crime scene reconstruction.

Pesticide resistance - Wikipedia

Entomology (from Ancient Greek ???????? (entomon) 'insect', and -????? () 'study of') is the scientific study of insects, a branch of zoology. In the past the term "insect" was less specific, and historically the definition of entomology would also include the study of animals in other arthropod groups, such as arachnids, myriapods, and crustaceans.

Yue Fei - Wikipedia

Fly fishing is an angling method that uses a light-weight lure—called an artificial fly—to

catch fish. The fly is cast using a fly rod, reel, and specialized weighted line. The light weight requires casting techniques significantly different from other forms of casting. The flies may resemble natural invertebrates, bait-fish, or other food organisms.

Entomology - Wikipedia

A physician (American English), medical practitioner (Commonwealth English), medical doctor, or simply doctor, is a health professional who practices medicine, which is concerned with promoting, maintaining or restoring health through the study, diagnosis, prognosis and treatment of disease, injury, and other physical and mental impairments. Physicians may focus their practice on certain ...

Phylogeny. Grasshoppers belong to the suborder Caelifera. Although "grasshopper" is sometimes used as a common name for the suborder in general, some sources restrict it to the more "advanced" groups. They may be placed in the infraorder Acrididea and have been referred-to as "short-horned grasshoppers" in older texts to distinguish them from the also-obsolete term "long-horned grasshoppers ...

History of the Encyclopædia Britannica - Wikipedia

David Ben-Gurion (16 October 1886 – 1 December 1973) was the primary national founder of the State of Israel and the first prime minister of the country. Born David Grün, he adopted the surname Ben-Gurion in 1909, and later rose to become the

preeminent leader of the Jewish community in British-ruled Mandatory Palestine from 1935 until the establishment of the State of Israel in 1948, which ...

Physician - Wikipedia

The name of the taxonomic order, Coleoptera, comes from the Greek koleopteros (????????????), given to the group by Aristotle for their elytra, hardened shield-like forewings, from koleos, sheath, and pteron, wing. The English name beetle comes from the Old English word bitela, little biter, related to b?tan (to bite), leading to Middle English betylle.

Beetle - Wikipedia

The name Revelation comes from the first word of the book in Koine Greek: ???????????? (apokalypsis), which means "unveiling" or "revelation". The author names himself as "John", but modern scholars consider it unlikely that the author of Revelation also wrote the Gospel of John. He was a Jewish Christian prophet, probably belonging to a group of such prophets, and was accepted by the ...

Fly fishing - Wikipedia

The sterile insect technique (SIT) is a method of biological insect control, whereby overwhelming numbers of sterile insects are released into the wild. The released insects are preferably male, as this is more cost-effective and the females may in some situations cause damage by laying eggs in the crop, or, in the case of mosquitoes, taking blood from humans.

Yue Fei (Chinese: 岳飞; March 24, 1103 – January 28, 1142), courtesy name Pengju (??), was a Chinese military general who lived during the Southern Song dynasty and a national hero of China, known for leading Southern Song forces in the wars in the 12th century between Southern Song and the Jurchen-ruled Jin dynasty in northern China. Because of his warlike-stance, he was put to death ...

Sterile insect technique - Wikipedia

Etymology. The English word "bear" comes from Old English *bera* and belongs to a family of names for the bear in Germanic languages, such as Swedish *björn*, also used as a first name. This form is conventionally said to be related to a Proto-Indo-European word for "brown", so that "bear" would mean "the brown one". However, Ringe notes that while this etymology is semantically plausible, a word ...
