TerminOx® is the first emission control product verified under CARB's large spark-ignition engine retrofit requirements 2008: Purifilter® Plus is verified as a Level 3+ reduction technology by EPA and CARB. Purifilter® Plus is the first verified hybrid DPF employing both passive and active regeneration; ECS moves

Diesel Particulate Filters (DPF)

Purifilter™ Purifilter™ from Engine Control Systems is an integrated diesel particulate filter and silencer, which efficiently removes particulate (PM) and gaseous pollutants, CO and HC. When the exhaust passes through the micro-porous filter walls the soot particles are separated and collected.

Engine Control Systems

Engine Control Systems' Purifilter Plus diesel particulate filter is a hybrid – it's not a completely active system. It works in a passive manner when the temperature of the exhaust is sufficient, meaning that it requires less plug-in intervals for regeneration.
