farmall super A

When I had did my first engine rebuilt on one of my Cubs this was a topic that we discussed. He suggested 15w-40 shell rottella t. His reasoning was that it's a very good quality oil low in ash and protects like a 40w when hot but pumps and lubricates much better when cold than a straight 30w.

Oil type for Super A - TractorByNet

Super M ran on mostly agway 30 wt oil back on the farm. Served it well! I used a 1650 cub cadet with a 16 horse kohler as my commercial mower for many years with no burnt valves or carbon. We had a deere 214, 14 horse kohler we would use as a brush hog on a neighboring farm for many years with no ill effects on the valves.

Gas tractors oil weight to use? - General IH - Red Power ...

ricky racer wrote:As a general rule, if an engine has an oil filter, run detergent oil. If it has no filter, run non-detergent oil. If it has no filter, run non-detergent oil. If you are not going to change the oil with the seasons, run a multi-weight oil.

Engine Oil Type - Farmall Cub

Thanks Clevy, and Rand, I dont think I will go that heavy, as the H has a gas engine in it. Doesnt leak oil also. Maybe I will be proved wrong, we shall see. Dad uses PYB 10W40 in his Super H thanks gentlemen, adam

What is the oil capacity of a farmall a tractor - Answers

Any good motor oil, personally I like 15W-40 diesel grade, been using it for 25 years. The taps on side of pan are add and full.;

Transmission, gear oil 90W or heavier, 5 qts. with belt pulley, 4 qts without belt pulley, fill to level plug should be just below front tip of left fender, usually they are right behind brake linkage.;
