which oil BMW R1150 - UK Motorbike Forum

The Reasons for Oil Pressure Light On After Oil Change. The oil pressure light on after oil change is a sign of concern. You have to understand that the light indicates the oil pressure, not the oil level. If this happens, it's bad for several reasons. Low pressure means the critical joints and friction surfaces of the engine are not enough lubricated, which will lead to serious damage.

BMW Service - Oil & Filter Change

The oil change interval for R1150R is 6k. I am using Synthetic Amsoil and always go up to 10k. For my F650CS local BMW Master mechanic recommended 10W40. He could not tell me in details why, but it has something to do with the wet clutch. But, BMW Master Mechanic does not ride my bikes, I do. He also does not fix my bikes, I do.
