sputter and backfire during acceleration - SilveradoSierra.com

My 1999 Subaru Legacy 2.5 l with 200 000 km sputters when accelerating at low rpms since a few weeks. This does not occur always, but about 99% of the time. On one occasion the sputtering was completely gone for about 10 minutes while driving in city traffic. even at very low rpms.

Engine Sputters During Acceleration

A car sputters when accelerating due to the fact air and fuel is not being properly mixed, therefore, forcing the car to run on unburned fuel. Another reason could be a weak transmission system that misfires when the engine experiences an extra load. A normal car reaction would be to open up...

8 Reasons Why Your Car Engine is Sputtering & Fixes ...

Engine is sputtering Inspection Service. An incomplete combustion in the engine will cause a sputter as can the ignition system. The fuel system, such as a blocked fuel injector may also cause the vehicle to sputter. While a sputtering engine may not seem like a major issue, it is a symptom of a bigger problem that will not self-correct...

Engine is sputtering Inspection Service & Cost

When you are accelerating and your vehicle is sputtering, it is usually a misfire in the engine. Meaning one of your spark plugs or wires is malfunctioning. A simple tune up will fix this problem.

VWortex.com - 1.8t Loss of Power, Sputtering during ...

Idle is good, but when I accelerate, especially going up hills, the engine coughs and sputters and won't even go the speed limit. I changed the spark plugs, oil, fuel filter, air filter, and used fuel injector cleaner. Idle is perfect; acceleration still bad.

Why Does My Car Sputter When I Hit the Gas? | Reference.com

last week I took my 2001 SR5-TRD to the wash-rack to degrease the engine bay. I used greased lightning then hit it with the power-washer, everything but the battery and fuse box. I drove it home and it started sputtering during acceleration, and stops sputtering once I reached my cruising speed.

How can I fix the sputtering that occurs when accelerating ...

Re: Engine sporadically sputtering/hesitating/chugging. Started with fuel filter on frame and fuel filter on tank switching valve. 1hr and 10 dollars.no luck. For those who do not know, this truck has 3 fuel pumps and 4 fuel filters. Replaced high pressure pump on the frame about 30 to 40 dollars and 1 hour job.

9 Reasons Your Car Jerks When Accelerating (and How to Fix)

Show example Chevrolet Silverado 1500 Engine hesitates during acceleration Inspection prices Engine hesitates during acceleration Inspection Service It can be frustrating for any driver to expect certain acceleration from their vehicle only to find that the vehicle seems to be hesitant while speeding up.

How To Fix Engine Hesitation During Acceleration

One of the most common causes is also one of the easiest to identify and fix. During the combustion process, a good spark is needed to properly ignite the fuel in each cylinder. A bad or dirty spark plug can prevent this proper ignition and will cause the engine to misfire. While driving, it feels like your vehicle jerks or shutter when accelerating.
