Misfire engine codes (P0400-P0406 and P0300 codes) Long starting, hard cranking; Poor idle and running at low-rpm's, but fine at high rpm's; 5. L35 and LF6 Engine Knock Problems. The 4.3 Vortec engines made from 1996-2002 (L35 and LF6) have been reported to have engine knock problems.

? 2021 Ford Transmission and Engine Problems ?

Engine stalling When trying to self-diagnose an ignition coil pack failing, we strongly suggest getting an OBD scanner. If you are experiencing misfires and your CEL is on, you will probably get back any of these fault codes: P0300, P0301(cylinder 1 misfire), P0302(cylinder 2 misfire), P0303(cylinder 3 misfire), P0304(cylinder 4 misfire).

Engine Stalling Problems - Possible Causes - What To Check

...

Cold stalling problems are the most common because the engine needs a richer fuel mixture to maintain idle speed until it warms up. Intermittent cold stalling problems are almost always fuel-related. On older engines with carburetors, cold stalling (and hard starting) is most often due to an automatic choke that is sticking, misadjusted or broken.
