Sustainable Forest Management (SFM) Where human intervention is necessary to the maintenance of a functioning forest ecosystem, this is known as sustainable forest management (SFM). In Europe, the concept of SFM was defined in 1993 at the pan-European Ministerial Conference on the Protection of Forests in Europe (MCPFE) as:

#### **Entrepreneurship and Management in Forestry and Wood ...**

1. Introduction. Forest entrepreneurship has been pointed as a promising solution for some of the problems in the forestry sector, in which it is not easy to increase the socioeconomic dynamics, bringing more economic activities and creating more employment (Shyamsundar et al., 2020), including a higher support in the markets promotion (Wulandari and Kurniasih, 2019).

#### **Forest entrepreneurship: A bibliometric analysis and a ...**

The recent development of forestry harvesting practices and the need to enhance forestry work collectively lead the association of entrepreneurs to promote sustainable management of forests. Entrepreneurs consider working hours necessary to improve the profitability of the interventions while limiting environmental impact.

### **Entrepreneurship And Management In Forestry And Wood ...**

From the country studies it was difficult to find common structures on policies affecting forestry entrepreneurship. This is understandable because most policies in forestry are aimed at supporting sustainable forest management, wood production and ecological services of the forests rather than entrepreneurship as such.
