Environmentality - University of Michigan

Outside of his study of the statistics used by colonial administrators, there is little to indicate what the use of these vaguely defined technologies might be. Presumably the technique of decentralization and partnership with locals constitute the "technologies of government." But the reader is left to assume this.

Environmentality: Technologies of Government and the ...

Ecogovernmentality, (or environmentality), is the application of Foucault's concepts of biopower and governmentality to the analysis of the regulation of social interactions with the natural world. The concept of Ecogovernmentality expands on Foucault's genealogical examination of the state to include ecological rationalities and technologies of government (Malette, 2009).
