10th Grade Biology Test On Evolution Test - ProProfs Quiz

Some prokaryotes differ as much from each other as they do from eukaryotes so they belong in two domains: Archaea and Bacteria. The three domains of life are Bacteria, Archaea and Eukarya. Archaea share characteristics with organisms in Eukarya such as having peptidoglycan in the cell wall, histones associated with DNA, several RNA polymerases, intron present, and methionine as the starting amino acid.
