do you think is easier to use: metric units or U.S. units? Why? How could you use the Gizmo to figure out how many yards there are in a kilometer? Why is it important to be able to flip the tiles in the Gizmo?

ExploreLearning Gizmos: Math & Science Simulations
When a foreign substance such as a drug is ingested, it often remains in the bloodstream for a long time. This Gizmo models the elimination of substances from the bloodstream using water and dye. Add dye to a container of water, and then add beakers of pure water while removing beakers of dyed water. The amount of dye remaining is recorded after each cycle.
