All you need is a 2GB USB flash drive, and Fedora Media Writer. Once Fedora Media Writer is installed, it will set up your flash drive to run a "Live" version of Fedora Workstation, meaning that you can boot it from your flash drive and try it out right away without making any permanent changes to your computer.

Fedora 20 Install Guide – If Not True Then False

To mount encrypted block devices the `sysadmin` (or `user`, depending on context) must provide a passphrase to activate the decryption key. Encryption provides additional security beyond existing OS security mechanisms in that it protects the device's contents even if it has been physically removed from the system.
