The Fold: Leibniz and the Baroque - Wikipedia
In The Fold, Gilles Deleuze argues that Leibniz's writings constitute the grounding elements of a Baroque philosophy and of theories for analyzing contemporary arts and science. A model for expression in contemporary aesthetics, the concept of the monad is viewed in terms of folds of space, movement, and time. Similarly, the world is interpreted as a body of infinite folds and surfaces that ...

And since Leibniz's philosophy is schizo at times, the pairing is near perfect (the best of all possible worlds). The opening image of the Baroque is a bit vague, but then again, Deleuze has always been short on precise connections and plentiful on creative and unorthodox imageries. Some sections are plain impossible to decipher.
