Used Ford Expedition with Turbo Charged Engine for Sale

The knocking noise occurs when I'm parked and I rev the engine and as it just starts to decelerate you hear it knock briefly, also when I'm driving as long as the engine is under load it is ok, but if I slightly let off a little throttle so the engine is under very little load or no load you can her it knock, almost like an old engine that wants to ping with bad gas (I'm dating myself with that comment), however this is definitely not a ping (detonation) this is a faint knocking sound.

Ford Expedition Engine Knocking

There are many different things that can cause engine knocking in your Ford Expedition. These would include issues with the spark plugs, bad or wrong fuel, carbon deposits, and more. Driving around with an engine that is knocking loudly can lead to a blown engine in no time.
