Flathead Ford Project #2 Plugs, Ignition wires and rewiring the generator.
The Ford flathead V8 (often called simply the Ford Flathead, flathead Ford, or flatty when the context is implicit, such as in hot-rodding) is a V8 engine of the valve-in-block type designed by the Ford Motor Company and built by Ford and various licensees. During the engine's first decade of production, when overhead-valve engines were rare, it was usually known simply as the Ford V78, and ...
