Module Detail - FOSS

Module Matrix Mixtures and Solutions Module 3 Content Reading Assessment • A mixture is two or more materials intermingled. • An aqueous solution is a mixture in which a substance disappears (dissolves) in water to make a clear liquid. • Mixtures can be separated into their constituents by using screen, filters, and evaporation.

MIXTURES AND SOLUTIONS Overview - FOSS

Students make mixtures of water and solid materials and separate the mixtures with screens and filters. They find that water and salt make a special kind of mixture, a solution, which cannot be separated with a filter but only through evaporation. Students are challenged with a problem: how to separate a mixture of three dry solid materials ...
