My Franz Hermle model 340-020A movement is a replacement for... First, I don't know very much about the 341-020 movement although I have seen several and have repaired some in the past. I have read the service manual etc... The question is: Is there any adjustment as to how high the three hammers are lifted during the strike sequence? There is nothing wrong with the running, chiming and striking of the clock.
