### Episode 3 Oil cooler

The Volvo Penta Marine All Models Turbocharger is an air pump which feeds compressed air into the engine to improve its performance. It drives a turbine and compressor using exhaust gases before they are expelled from the exhaust system. A wastegate is included in the turbo to prevent pressure build up when the engine switches to idle.

Seloc Marine Repair Guides for Volvo/Penta (Gas) Engines ...

The Volvo B21 is a slant straight-four engine first used in the Volvo 200 series, meant to replace the B20. The B21 and all derived engines are often referred to as red block engines for the red paint applied to the block. The primary differences when compared to the B20 was the switch to a SOHC in place of the older pushrod configuration, and an aluminum crossflow cylinder head versus the iron ...
