From Seed to Plant 2.1-12 - Reading

To plant, fill the pot half way with potting mix and gently place the seed in the pot. Handle with care so the roots do not break. While planting the seed, gently press down the potting mix and add more as needed, leaving the top inch of the seed above soil level. The plant stem will grow from there.

HOW TO: Grow an Avocado Tree from Seed

Soak the seeds. To make germination easier, consider soaking the seeds in tap water for 12 hours in a bowl. Viable seeds will sink to the bottom of the bowl and non-viable seeds will float. After 12 hours, place the viable seeds on a towel.
