What Did the Baby Porcupine Say When It Backed Into a Cactus? Determine which of the relations below are functions. Find the number of each relation that is a function at the bottom of the page and cross out the letter below it. When you finish, the answer to the title question will remain.

Function graFUN

Equations that are functions can be written in a form called functional notation, as shown below. equation functional notation $y = 4x + 10$ $f(x) = 4x + 10$ So, $f(x)$ is simply another name for y . Letters other than f are also used for names of functions. For example, $g(x) = 2x$ and $h(x) = x + 6$ are also written in functional notation.
