Explanation: . A good way to remember afferent vs. efferent neurons is: Afferent Arrives, Efferent Exits. Afferent neurons are neurons whose axons travel towards (or bringing information to) a central point, while an efferent neuron is a cell that sends an axon (or carries information) away from a central point.

As the number of online courses and degree programs greatly expanded during the past decade, so did the number of exams administered online. Tens of thousands of online exams now are taken each month by students enrolled in online courses -- 30,000 exams a month at Western Governors University alone -- as well as by a growing number of learners in face-to-face classes.
