Global Political Economy: A Marxist Critique on JSTOR
Political economy is the study of production and trade and their links with custom, government and law. It is the study and use of how economic theory and methods influence and develop different social and economic systems, such as capitalism, socialism and communism; it also analyzes how public policy is created and implemented.

Global Political Economy | Princeton University Press
Global political economy is a field of study that deals with the interaction between political and economic forces. At its centre have always been questions of human welfare and how these might be related to state behaviour and corporate interests in different parts of the world.

International political economy - Wikipedia
Global Political Economy is a network of all economies and polities of the world and a decision taken by a single country has global repercussions, which thus entail decisions to be taken collectively.

Global Political Economy - E-International Relations

Global political economy goes beyond relations between nations, i.e., nation-states. For example, drug trafficking, illegal arms deals, smuggling goods and people, and laundering their financial products, which are estimated to amount to a trillion dollars annually, are not taking place in the framework of relations between nation-states.
