Is Dairy Bad for You, or Good? The Milky, Cheesy Truth

Essential oils are oils that are extracted from plants through a distillation (water or steam) process. This technique uses all parts of the plant including the root, stem, and flowers to create highly-concentrated oils that are commonly used in skin care and aromatherapy products to both provide fragrance.

Young Living: 16 surprising facts you should know about ...

As we mentioned above, using essential oils for skin care is a bad idea because so many of them hurt skin more than they help. All of the citrus oils, including lemon, lime, tangerine, grapefruit, mandarin, and bergamot, are a big problem for all skin types.

Good Products, Bad Products: Essential Elements to ...

'Good Products, Bad Products...' was a book I won from a giveaway on Goodreads. This book was a very interesting read. I as a person who does not think about all the aspects that need to go into creating a good product, this book opened my eyes to that. The author does a nice job of explaining the many aspects of a quality product.

Essential Phone Reviews - TechSpot

Look for products with both the common and botanical name of the plant on the bottle. Some essential oils might also indicate the plant's country of origin. It's even better if the product's label shows the distillation process, distillation date, and expiration date. Good essential oils come from organically grown plants.
