Materials of Engineering

Sulphuric acid. These corrosion data are mainly based on results of general corrosion laboratory tests, carried out with pure chemicals and water solutions nearly saturated with air (the corrosion rate can be quite different if the solution is free from oxygen). All concentrations are given in weight-% and the solvent is water if nothing else is...

coverage of previously discussed environments as well as information on environments which deal with the dairy, food, brewing, aerospace,...

Corrosion Handbook

The corrosion data in this section is mainly based on the results of general corrosion laboratory tests, which are not strictly comparable with actual service conditions. The corrosion tables provide an initial guide to the selection of materials and are intended to facilitate understanding of the different types of corrosion damage that can

Handbook of Corrosion Data (Materials Data Series ...

This hardback book " Handbook of Corrosion Data" is preowned but is in very good condition. This book is 2nd printing 1990 copyright 1989. The cover has minor wear. The outside edges has some spots but not bad. The pages of the book look like new but the other items stated above is why I am saying very good condition.

DECHEMA | Corrosion Handbook

The carbon dioxide evolved reacts with carbon to form carbon monoxide as the carrier gas, which does the actual carburizing. While the process can be continuous, much of it is done as a batch process, with consequent high labor costs and uncertain quality to be balanced against the flexibility of custom carburizing.
