Harley 120 Engine

The 103 engine is the second engine of Harley Davidson that uses two cams to drive the valvetrain. And in the year 2012, this engine became a stock of Harley Davidson bikes. When it comes to speed, this engine can go up to 100 to 120 mph. As a result, this engine became the standard engine of Softail and touring models.

new hampshire motorcycles/scooters "harley davidson" - craigslist

Versatility is the key word for the Harley-Davidson Dyna Switchback. It's a tourer with hard panniers and a big windscreen, yet in seconds the luggage and screen can be whipped off to reveal a handsome boulevard cruiser. So you can switch back from tourer to cruiser and back again, hence the name. At \$25,995 (plus on-roads) it's an attractive proposition being two bikes for the price of ...
