### **Head First JavaScript Programming | WickedlySmart.com**

Head First: Well, give us the gist. JavaScript: Let me just say this, JavaScript was built to live in a dynamic web environment, an exciting environment where users interact with a page, where data is coming in on the fly, where many types of events happen, and the language reflects that style of programming. You'll get it a little more a bit ...

### **Head First JavaScript Programming [Book]**

Head First JavaScript offers one of the clearest guides to understanding the language basics and takes the reader to some of the advanced features of the language in a very helpful way. I'm a big fan of Head First style and find it very helpful for self-taught students, without having to worry about every little thing out there.
