Heavy Equipment Safety. Operation of heavy equipment such as excavators, loaders, graders, rollers, and bulldozers, should always be done by highly skilled operators who have demonstrated the ability and necessary skills to operate safely. Ground-based workers should be trained in how to work safely around the equipment, and how to stay clear.

By the second half of the 90s, the Galant needed a major update to keep up with strong competition in mid-size market sedan. To accomplish this, it has grown a bit, got various interior upgrades and rich equipment. However, the most striking difference was the appearance, which was radically different from the previous car.
