Has anyone had success downloading parameters from a
Hitachi Seiki Seicos control. It seems that when I try to the
control acts like it is outputting the info but all I get is one
bit of info and then the laptop stops. I'm using Procomm to
download. I have downloaded the part programs but the
control won't let me download the parameters.

I recently purchased an Hitachi Seiki HT 20 lathe for a price I could not refuse. The guy I bought it off used it for machining industrial plastics. It seems the company he got it from used it to machine wood as there is a fine coating of saw dust everywhere. If this is a good or bad thing I'm not sure.
